# G Company 75th (Ranger) Infantry Regiment Compilation of Vietnam Articles (Formerly E Company, 51st (LRP) Infantry).

## Forwarding note from Leslie Hines, ADVA Vietnam era historian for 2021

The Americal Division Veteran's Association Historical Data Base contains many news articles, reports, unit albums, casualty reports, KIA information, videos and maps relating to units that served with the Americal Division. My work on this effort began way back in the 1990s. Many items came from veterans sharing their news articles with me or from tedious efforts to locate and transcribe the text and images from microfilm copies. Today the data base now holds approximately 40% of the stories of our service in the Americal Division and supporting units. It is way short of my goal, but it is the result of my best effort.
I have realized that it might be difficult for a veteran to find stories about their battalion/regiment from the data base if they did not have some computer skills. This compilation may come too late for some, but it is always something that I hoped that would be done by a unit's web master or some other helpful soul as I continued to add more material to the data base. But it is time that I start making the effort. If for no other reason than to illustrate what can be done if someone makes the effort to compile their own unit stories from the data base.

This compilation was mostly limited to only news stories. These come mainly from official publications from the Americal Division Public Information Office. Some stories made into the "Pacific Stars & Stripes" and the "Army Reporter" which published many of the articles provided by the Americal Division Information Office. It also includes brigade command newsletters, the division daily newsheets. the Americal Division magazines (12 issues), the Americal Division Book (printed in July 1970), and 117 issues of the "Southern Cross" published in Vietnam were included. Notable sources of stories that were not included in the compilation were the ADVA Newsletter/Journal stories. Some of the ADVA "Newsletters" have been scanned as read only images. The issues of the ADVA "Journal" can be searched electronically and currently is complete. It would be possible to select several more articles if I had time to research stories that did not provide the company name. For example a story might only refer to the action of a unit of the Americal Division or the G/75th company engaging the enemy. If the story indicated their were 23 enemy killed and a cache of 12 B-40 rockets I might be able to identify that the company was from the G/75 Inf. Rgt.

Note: References to photos may indicate that we have an image taken from microfilm or xerox copy. These may be found in PDF files in the historical data base or you may request copies of the images the ADVA historian.

No tour books for the G/75th Inf. have been located. These books are similar to high school year books. These were created under the direction of the officer assigned duties as historian for the battalion.

Another source that has not been worked is the news releases sent to home town newspapers with stories about our veterans.

E Co., 51st Inf. (LRP) and G Co., 75th Inf. (Rangers) were elite units. I had expected to find more photos and articles about their actions. It might have been that having news stories out about what they were doing as it might compromise their operational security.The veterans of the Americal Division and otherswho benefited from these elite units appreciate their dedication and sacrifice. At the end of this document I inserted entries from the Americal Division Daily S2/S3 TOC reports from May 1968, May 1969, May 1970, and May 1971. These are samples of the type of information that could be found in these reports that are currently available at AmericalFoundation.org and also at the Texas Tech Vietnam Archives Americal Divsision portal. There are also ORLL reports, and Battalion S2/S3 reports that might have more information available. E Co, 51st (LRP) and G Co, 75th Rangers operated all throughout the Americal Division AO and supported nearly every operation in the AO. So there is no listing for operation participation like I have done for other units.

## The information is from the Stanton Order of Battle Reference Book:

## Company E, 51st Infantry (Long-Range Patrol)

Arrived Vietnam: 20 December 1967
Departed Vietnam: 1 February 1969
Previous Station: Vietnam

Authorized Strength: 118

Company E., 51st Infantry was a long-range reconnaissance patrol company serving the 23d Infantry Division (Americal), later replaced by Company G, 75th Infantry (Ranger).

## Company G, 75th (Ranger)

Assets derived from Co. E, 51st Inf (LRP) 1 February 1969

Authorized Strength 118

Company G, 75th (Ranger) served the Americal Division.

Departed Vietnam: 1 October, 1971

The 75th Infantry ("Merril's Marauders") was organized 1 January 1969 under the Combat Arms Regimental System (CARS) to provide a parent unit for the separate long-range reconnaissance patrol companies. That year the assets of the long-range patrol companies in Vietnam were tranferred to the ranger companies of the 75th Infantry, continuing the tradition of the famed Merrill's Marauders of World War II – the 5307th Provisional Composite Unit which had been designated the 75th Infantry in 1954. Ranger companies in Vietnam were particularly elite.

Staff Sergeant Robert Joseph Pruden received a posthumous CMOH award.

# Medal of Honor citation

Staff Sergeant Pruden's official Medal of Honor citation reads:

For conspicuous gallantry and intrepidity in action at the risk of his life above and beyond the call of duty. S/Sgt. Pruden, Company G, (75th Infantry Regiment) distinguished himself while serving as a reconnaissance team leader during an ambush mission. The 6-man team was inserted by helicopter into enemy controlled territory to establish an ambush position and to obtain information concerning enemy movements. As the team moved into the preplanned area, S/Sgt. Pruden deployed his men into 2 groups on the opposite sides of a well used trail. As the groups were establishing their defensive positions, 1 member of the team was trapped in the open by the heavy fire from an enemy squad. Realizing that the ambush position had been compromised, S/Sgt. Pruden directed his team to open fire on the enemy force. Immediately, the team came under heavy fire from a second enemy element. S/Sgt. Pruden, with full knowledge of the extreme danger involved, left his concealed position and, firing as he ran, advanced toward the enemy to draw the hostile fire. He was seriously wounded twice but continued his attack until he fell for a third time, in front of the enemy positions. S/Sgt. Pruden's actions resulted in several enemy casualties and withdrawal of the remaining enemy force. Although grievously wounded, he directed his men into defensive positions and called for evacuation helicopters, which safely withdrew the members of the team. S/Sgt. Pruden's outstanding courage, selfless concern for the welfare of his men, and intrepidity in action at the cost of his life were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the U.S. Army.

Award of the Bronze Star citation is attributed to the Coffelt Data Base team.

DEPARTMENT OF THE ARMY
HEADQUARTERS AMERICAL DIVISION
APO San Francisco 96374

GENERAL ORDERS 19 March, 1968
NUMBER 1400

AWARD OF THE BRONZE STAR MEDAL

1. TC 320. The following AWARD is announced posthumously.

MCLAUGHLIN, DANIEL P. JR. US27368461 (SSAN NVAL), SERGEANT E5, United States Army, Company E, 51st Infantry. Americal division APO 96374

Awarded: Bronze Star Medal with "V" Device
Date action: 19 January 1968
Theater: Republic of Vietnam

**Reason:** For heroism in connection with military operations against a hostile force. Sergeant Mclaughlin distinguished himself by exceptionally valorous actions on 19 January 1968 in the Republic of Vietnam while serving as a member of a six man Long Range Reconnaissance Patrol in the area of Quang Nam Province. On that date, the team was taken under fire by a large force of North Vietnamese Army regulars. Immediately upon making contact with the enemy force, Sergeant Mclaughlin, with complete disregard for his own safety, moved across a clearing in an attempt to reach the radio and call in artillery fire on the hostile positions. As he crossed the bullet-swept area he was wounded in the chest by enemy small arms fire. Displaying great courage and determination, Sergeant Mclaughlin continued across the clearing until being wounded for the second time. Realizing that he could not reach the radio, he stood up in the exposed position and delivered effective suppressive fire on the insurgents' position until he fell mortally wounded. Sergeant Mclaughlin's gallant display of bravery served as an inspiration to the rest of his team. Sergeant Mclaughlin's intrepid actions and avid devotion to duty were in keeping with the highest traditions of the military service and reflected great credit upon himself, the Americal Division and the United States Army.

Authority: By direction of the President under the provisions of Executive Order 11046, 24 August 1962.

FOR THE COMMANDER:

OFFICIAL

NELS A. PARSONS, JR.
Colonel, GS
Chief of Staff

.....

Dec. 20-11th Inf. Bde. arrives at Duc Pho from Qui Nhon to join the division. Co. E, 51st Inf. (Long Range Patrol) is organized and activated.

## KHAM DUC REVISITED by SP4 Thomas J. Neville Fall 1970 issue of Americal Magazine.

KHAM DUC, Vietnam (Special, May 12, 1968) - Elements of a Special Forces unit and Civilian Irregular Defense Group operating at an American airstrip were forced to evacuate today as enemy forces overran the base camp.

KHAM DUC, Vietnam (AMERICAL, 1O, Summer, 1970)-For more than two years this lonely outpost, seven miles east of the Laotian border, lay abandoned in the heartland of enemy-occupied territory. But a massive combat assault, involving an allied task force of Americal Division and ARVN soldiers, turned the tables this summer by reclaiming and renovating the strategic base camp.

The prime mission of the allied takeover was to establish a secure base of operations so that enemy supply routes in the area could be interdicted. Kham Duc has served several purposes since the Americans first occupied the area. The **Fifth Special Forces** and the **Civilian Irregular Defense Group** occupied the bastion until May of 1968 when the NVA gained the high ground and waged a massive assault on the camp. Facing superior forces, the Americans were forced to evacuate and the **Second Battalion, First Infantry**, 196th Brigade, was dispatched to Kham Duc, to assist in the extraction of nearly 1,500 persons. Under the cover of 150 airstrikes by U.S. and Vietnamese aircraft, the massive airlift was accomplished in only six hours.

The **Second Battalion, First Infantry** returned to Kham Duc this summer. Other elements participating in the effort included: **Alpha Company, 26th Engineers, 23d Supply and Transport Company; G Company, 75th Rangers; U.S. Air Force Mobility Team; Sea Bee Construction** element and the **6th ARVN Regt**. Artillery support was provided by the **1st Battalion, 14th Arty and the 1st Battalion, 82d Artillery.**

A panorama of scenic beauty, contrasted with stark realities of war, was witnessed by the men who rode the waves of combat assault choppers into Kham Duc. The apprehensive troops viewed bluish-green peaks of the Annam Mountains and the lush green carpeting, which seems to meander through the valleys. But the sight at Kham Duc was not really aesthetically picturesque. The legacy from 1968 was pictured in the form of wrecked airplanes, helicopters and construction equipment, which littered the skirts of the runway. A dozen bomb craters pockmarked the 6,000-foot airstrip and an American jeep, riddled with bullet holes, lay like a skeleton beneath a crust of rust.

It was blistering hot, barren and depressing when Americal soldiers arrived. The men had nothing to look forward to but tedious, back-breaking work. To complicate matters, the enemy had seeded the airstrip with more than 150 booby-trapped mortar rounds. The **26th Engineers and Explosive Ordnance Disposal teams** completed the touchy task of locating and removing the imbedded mines.

The first few hours on the ground were naturally tense. "I didn't know what to expect and believe me I was scared." said PFC Earl McDaniel. But with the 6th ARVN Regt. securing the high ground and American and ARVN forces patrolling the lower terrain, relative security was quickly established.

Aching muscles and beads of sweat were by-products of the hard work being done as the men dug in and rebuilt the outpost. It was essential to repair the airstrip in order that supplies could be airlifted into the base and the 26th Engineers made short work of that. Men reamed out the cavities, filled them with crushed rock and concrete and smoothed the surface with oil. The fruits of their labor blossomed just four days after the recapture when an Air Force 123 cargo plane touched down on the refurbished runway. The men who toiled with picks and shovels gazed with excitement and pride as the craft landed safely.

"It felt pretty good to see him land," beamed Captain Aaren Evans, the commanding officer of **Alpha Company, 26th Engineers**. Air Force Staff Sergeant Jessie Ritchie, who was aboard the first plane, described the landing as ""real good". He noted that similar flight would be capable of transporting nearly 400,000 pounds of ammunition per day.

Photo - showing C-130 on the airstrip behind the wreckage of a C-130 destroyed in 1968.

Relative calm prevailed for the first three weeks of the allied occupation. But that calm was shattered by a furious storm of deadly violence during the blackened-pre-dawn hours of August 5. "Sappers in the wire," bellowed PFC Kenneth Pawlak, who was on the bunker line guard duty with the **1/82d Artillery**.

Pawlak described the first few fearful moments, "The first sapper was about eight feet in front of me when I first saw him. I jumped to the left side of my bunker just as he threw a satchel charge. The end of the bunker was blown away." The Redlegs reacted while mortarmen from **Company E, 2/1st Infantry** fired continuous illumination, despite the fact that their compound was being hit with enemy mortar and rocket fire.

(Photo showing UH-1 coming in, photo of airstrip from a surrounding mountain, and the BTOC bunker with twin antennas showing.)

When the fighting ebbed and the first light of day peeked over the jagged mountains to the east of the desolate firebase, the bodies of 18 sappers, clad only in loin cloths, were found. Ten of the enemy died inside the perimeter while the rest were outside. It was the first serious test of the defenses of the Kham Duc airstrip and it forced the men to perform their daily tasks beneath a heavier cloud of anxiety. The August days and nights passed slowly. The men who had dug in at Kham Duc on July 12th were no longer newcomers or transient travelers. They had made the remote firebase their temporary home and each unit performed its mission well. By the end of August the aim of the operation was achieved. The Americal soldiers had done the job.

Army Reporter
07Jul69 - **Quick reaction foils attack**

**LZ BALDY** - The dark morning stillness exploded for the **196th Inf. Bde**. recently at this Americal Division fire support base (FSB) when a company of NVA attempted an unsuccessful sapper attack that resulted in 43 enemy killed.

The enemy invaders were credited with damaging several bunkers and hootches, two jeeps and a battalion chapel with satchel charges and rocket-propelled grenades before quick-reacting Americans derailed the attack.

Volleys of fire lashed out until dawn's light yielded temporary peace. Morning patrols of the perimeter discovered 125 Chicom grenades, more than 25 satchel charges, 8 AK47s, RPG launchers, 3 AK50s, a .45 caliber pistol, an M79 grenade launcher, an M16 rifle, and a bangalore torpedo.

Firing erupted initially when a 15-man enemy force penetrated perimeter defenses silently and thrust towards a ranger camp located on a remote sector of the base.

As the NVA stealthily scaled the hill behind the camp, the rangers' pet mongrel, "Crash," began barking fiercely and ruptured whatever plans the enemy may have had for an undetected entry.

The 11 long range patrol soldiers, members of **Co. G, 75th Rangers**, asleep in the camp, quickly moved to firing positions and proceeded to pepper the enemy with heavy weapons fire. Bitter fighting raged within the camp until dawn when the sapper attack was finally repulsed.

During the first moments of struggle, other squads of enemy were storming different points on the perimeter. Bunkerline guards were successful in beating off the enemy lunges on the southern and eastern sides of the base. The enemy that did penetrate were first held at bay and then repelled by the stiff resistance of an alerted FSB.

## Army Reporter

14 July 1969 - **Americal soldiers squelch sharp NVA sapper attack**

**LZ BALDY -** Quick reaction on the part of this Americal Division fire support base recently was credited with aborting an estimated NVA company-sized sapper attack and leaving 31 enemy dead inside the perimeter wire.

Sapper teams, armed with satchel charges, Chicom grenades, AK47s and AK50s and new RPG7 rocket launchers, were apparently trying to hand North Vietnamese leader Ho Chi Minh a special victory.

But defenders of the **196th Inf. Bde** and supporting elements very quickly threw a wet blanket on any ideas of an NVA victory. The infiltrators succeeded in inflicting only light damages before being cut down inside the perimeter. U.S. casualties were light.

The attack came on a night which saw increasing enemy activity throughout the Republic of Vietnam. In I Corps, Da Nang and Chu Lai were both objects of rocket attacks. Thirty NVA were killed in attacks on other brigade elements at LZs Center and Professional.

At LZ Baldy, fighting continued until well after dawn. U.S. Patrols at morning's light discovered 29 enemy bodies and gathered up more than 125 Chicom grenades, 25 satchel charges, six AK47s, three AK50 assault rifles, and six RPG launchers.

Three of the launchers, one equipped with a night sighting device, were of the latest 1968 Russian-made RPG7 model, according to Capt. Robert E. Netter, intelligence officer.

"These were brand new launchers," said Netter. "They apparently did not even get a chance to fire them."

Early morning quiet at the base was broken when LRPs at one of the northside bunkerline posts reported a large number of enemy slipping through the wire. The infiltrators were scaling the cliff behind their position completely surrounding them. The Rangers called for illumination.

Lt. Donald Fanelle, headquarters company commander and duty officer for the night, took the call at the battalion tactical operations center.

"We've got sappers moving trough the wire, sir!" advised the LRP trooper.

"How many?" queried Fanelle.

"A lot of them, sir."

"How many is a lot of them?" shouted the lieutenant, already calling for the needed illumination.

Within seconds the entire base was bathed in the yellow light of mortar flares, and the base defenders began engaging the sappers.

At the duty NCO's hootch perched atop a peak overlooking the perimeter line, S. Sgt. Frederick J. Fekete had just awakened to the red alert when he spotted a sapper team climbing up the draw below his bunker.

One of the NVA hurled a satchel charge at the bunker, but it deflected against a window screen and exploded harmlessly. Seizing his M16, Fekete blasted the pair through the screen, wounding them.

Charging out of the bunker, he finished one with a blow from his rifle butt and then pursued the other into the brush where he shot him. The two sappers had been armed with several satchel charges, Chicom grenades and an AK50 assault rifle.

***[Historian Note: This sounds a lot like the action of May 12, 1969 or a repeat involving men from G 75th Rangers].***

## Army Reporter

**07Sep70- Troopers fight, build back to embattled camp** Page 6-7

By Spec. 4 Thomas J. Neville

KHAM DUC - Rebuilding a base camp, complete with a 6,000-foot airstrip, is like carving a small town out of dirt, burlap, asphalt and a lot of thick sweat.

Men from various units of the 196th Inf. Bde. labored long hours and accomplished such a task. Five days after being combat-assaulted into this lonely outpost 80 miles west of Tam Ky, the Americal Division task force had dug, in renovated the air strip and established a secure base of operations.

Resembling an island in a sea of Vietnam's roughly hewn mountains, Kham Duc is not virgin territory for American or enemy forces. As early as 1961, the 5th Special Forces Gp. manned the outpost as a base for various strategic operations.

The Special Forces-advised Civilian Irregular Defense Group (CIDG) camp was abandoned in May 1968. The **2nd Bn., 1st Inf**., of the 196th Bde. was dispatched to the area and assisted in the extraction of civilians and American troops.

Although the extraction was successful in terms of light friendly casualties, some U.S. heavy equipment had to be left behind. The airstrip also suffered heavily from intense rocket and mortar barrages.

The Legionnaires of the 2nd of the 1st are back at Kham Duc. Other elements that took part in the construction, reconstruction and fortification of the bases included **Co. A, 26th Engr. Bn**.; **23rd Supply and Transport Co**.; **Co. G,. 75th Rangers**; a **U.S. Air Force mobility team**; a **Seabee construction** element and the 6th ARVN Regt.

Kham Duc was blistering hot, barren depressing and dangerous when Americal soldiers arrived. The men had nothing to look forward to except tedious, back-breaking work. To complicate matters, the enemy had planted more than 150 booby-trapped mortar rounds in the vicinity of the airstrip.

Further evidence of the enemy's presence in the area was found during searches by the **26th Engr.** Bn. and patrols conducted by **Legionnaire** units. Caches of ammunition, including a find of 1,420 rounds of .51-caliber ammo, were uncovered.

Bunkers, tunnel complexes and fresh fish and medical supplies were also found, adding credence to recent enemy occupation. **Co. A's 3rd Platoon** also discovered four model helicopters, carved from wood and resembling the Huey-an indication that the enemy was operating a training site in the area.

It was essential to repair the airstrip so supplies could be airlifted into the base. The engineers made short work of that problem. The first plane, an Air Force C-123 cargo, touched down July 16. The men who had toiled with pick and shovels for four days gazed with excitement and pride as the craft landed safely.

"It felt pretty good to see him land," beamed Capt. Aaron Evans, the commanding officer of **Co. A**. Air Force Staff Sgt. Jessie Ritchie, who was aboard the airplane, described the landing as "real good," He noted that similar flights will be capable of transporting 300,000 to 400,000 pounds of ammunition a day.

Once mortar crews dug into their pits and artillery units set up their deadly cannon, an air of cautious optimism and security permeated the bastion.

The feeling of relative security was unknown when the troops first flew into Kham Duc.

But there was one man who did have an idea of what to expect." The area was not unfamiliar to him. M.Sgt. David H. Doughty had spent some time at Kham Duc and vicinity nearly four years ago.

Now on his second tour in Vietnam, Doughty scanned the seemingly impregnable terrain and recalled, "I was here for two weeks in September 1966, when I served with the **5th Special Forces."** A member of a long range reconnaissance patrol (**LRRP**) team, Doughty knew only too well the difficulties and danger of the dense jungle underbrush and the eerie triple-canopy ceiling which characterize the region.

Doughty noted some of the things the units discovered on the first day of this recent takeover. "We found a trench complex which had obviously been used recently because the engineers found new rucksacks, medical supplies and fresh fish." He estimated that the enemy had used the area as recently as a day before the Americans moved in.

He continued, "A lot of physical work goes into building a base camp like this."

(continued)

(continued)

He added a few praiseworthy words about his men, "Two of the most hated things the Army has to do is to dig dirt and fill sandbags-but these guys are really putting out and getting a lot accomplished."

Aside from a few men who had been to Kham Duc in the past, there was another remnant of American presence in the area. Members of the 3rd Bn., 82nd Arty., found an old 105mm howitzer round on the northwest side of the runway.

There was something very unusual about the round. Painting on the shell casing revealed that it was the 100,000th round from **Btry. A, 3rd Bn., 82nd Arty.** The battery was forced to leave the round behind during the hasty evacuation, and it never had the opportunity to fire it.

CAMP REASONER - For 12 of the last 13 months they have lived, slept and sometimes even fought side by side. They call each other "brother", but the only blood bond they share is that spilled by their enemies.

Ronald D. Hicks and Steve L. Hicks both specialist fours, fought together with the cavalry near Bien Hoa for three months and then separated for a month. They were coincidentally reunited when both applied for ranger training in the 196th Inf. Bde.

"I couldn't believe it when I first saw him," remembers Ron. "He had gone home on an emergency leave and I thought our partnership had ended."

While with the cavalry, Steve had talked of going ranger, but Ron didn't want to, so Steve dropped it. It was a complete surprise when they met in Company 2, **Co. G, 75th Rangers** here.

"I thought he'd be the last person to become a ranger," stated Steve. "Before, Ron was pretty adamant about not going in the program."

When team Paris, the six man squad they work in, splits into two flanks, the two "brothers" almost always accompany each other. Their concern for one another combined with a sixth sense on their partner's reactions makes them an impressive fighting team.

"There's something between us; I really can't put my finger on it," explained Ron. "We always go together; we're like one."

"If we hit contact, the first thing I look for is to see if he's hurt," added Steve. "I try to keep close enough, so I can watch him all the time."

"Also, when we hit something, I know exactly what he's going to do," continued Steve. "In a time of reaction instead of thought, it can make the difference between whether we come back together or one of comes back alone."

**Light action throughout Vietnam**

Early in the afternoon of Aug. 14 in Thua Thien Province of Military Region 1, a U.S. Army OH6 helicopter on a visual reconnaissance mission 22 miles southeast of Hue received enemy small arms fire. U.S. helicopter gunships and artillery engaged the enemy, killing five, destroying 30 bunkers, and causing numerous secondary explosions. There were no friendly casualties.

**23rd Inf Div**

In Quang Tin Province of Military Region 1 shortly after noon on Aug. 8, an element of the 198th Bde., 23rd Infantry Division engaged an estimated enemy squad 15 miles southwest of Tam Ky. Five of the enemy were killed. There were no friendly casualties. (Note: Americal Division ORLL report **A/1-52nd Inf** engaged 23 NVA with artillery from **D/1-14th arty**. results 2 NVA KBA vic BS252628)

Later that afternoon in Quang Nam province an aerial observer detected an undetermined size enemy force five miles east of Thong Duc. Fire was called for from an artillery element of the 23rd, resulting in five of the enemy killed. ***(Historian Note: per Americal ORLL report: This appears to be G/75th Rangers working with C/3-16th Arty vic AT825517 recording 5 VC KBA on August 8, 1971)***

## Army Reporter

18Oct71- **Rangers nab VC with basic recipe** **Page 1**

CAMP REASONER - How do you catch a Viet Cong? Your basic ingredient is five and a half hours of sitting, no talking, no smoking. Add a dash of ranger staff sergeant, sprinkle in the word "Hey" and serve out of a piping hot jungle.

This is not the only known recipe for catching a VC, but it did prove effective for the 196th Inf. Bde.

The day before the men of Paris Team had seen over 20 enemy, so they decided to stake out a trail. These men from **Company 2, Co. G, 75th Rangers** picked a bend in the path to avoid detection.

"After five and a half hours of waiting, we saw this VC bopping up the trail," remembers Staff Sgt. Larry G. Ousley. "We suspected more behind him, so I let him get around the bend."

"When he was five feet away, I stood up and yelled, 'Hey'," continued Ousley. "If I hadn't known better, I would've thought he was a statue; he froze rigid."

Overcoming the initial fright, the enemy held up ten fingers indicating that there were ten of his comrades behind him. The staff sergeant grabbed him and pulled the enemy under the bushes.

"I guess he told us about the others to buy his own life, cause he knew we had him dead to rights," mused Ousley. "Maybe he just didn't want to be in the thick of the fighting when it started."

Watching the trail, the men saw two VC emerge up the path almost 500 meters behind the captured enemy. Unfortunately, the enemy also saw the rangers.

The two enemy along with two behind them dropped and started firing. Judging from the volume of the fire, the rangers soon knew that their "intelligence report" was correct.

Historian Note: This article referenced Team Miami operating in an area that G/75th had operated in. Team Michigan, Tennessee, Oregon, Ohio, Texas and Arkansas in late 1971 were operational for G/75th Rangers. I do not have a confirmation for Team Miami as being part of G/75th or an action in August-September 1971 for G/75 Rangers. G/75 Rangers had left Vietnam 1 October 1971 so the action listed in this report would have to have been prior to 1 October 1971 or by a Ranger unit that replaced G/75th Rangers in this AO.

## Army Reporter

10Jan72- **Short recon mission not lacking in results** **Page 1**

**CAMP REASONER -** "I like short missions," claims SSG Rick Clendenin and **Ranger Team Miami** ***(G Company 75th Rangers)*** were recently involved in a very short reconnaissance mission.

In less than 24 hours on the ground, the six-man team pinpointed an area of enemy activity and surprised an enemy patrol, resulting in two enemy dead.

At dusk, the platoon began to set up its night defensive perimeter. Before settling in, patrols were sent out to assure that the security of their position would not be compromised by trails, tunnels or enemy emplacements.

One patrol consisting of assistant team leader Sgt George Hatcher and Spec. 4 Louis Silva spotted a likely avenue of approach, a tunnel with a freshly cut trail nearby.

In order to defend the perimeter, Hatcher began to set up a mechanical ambush near the entrance of the tunnel, Silva, meanwhile, kept watch while his partner's attention was on the exacting task.

Silva's efforts proved vital that evening when two enemy soldiers came down the trail. The patrol, with the element of surprise on their side, killed the soldiers.

The possibility of the two dead enemy being a lead element brought the patrol back to the perimeter. Once there, they informed the team of the incident. The team waited in force for the appearance of more soldiers.

When there was no indication of movement, a second patrol went to the area to investigate. Sgt. Keith Cunningham walked point for Sgt. Bruce Blevins and Clendenin.

The patrol found two dead soldiers with an AK-47 and a grenade launcher. Then an enemy element of 11 to 12 men appeared on the trail. Aside from small arms and fragmentation grenades, the element was in possession of a tripod mounted machinegun.

Once again with the element of surprise on their side, the Rangers imposed their fire power on the enemy first. The patrol returned to the perimeter with point man Cunningham covering the return while trying to make his own way back.

MIRACLE WEATHER FORECAST May 25
Partly cloudy and warm with a few scattered showers & thunder showers over the area. Winds will be southerly with gusts 5 to 10 knots.
Temperature: H 100 L 80

AMERICAL DIVISION NEWS

CHU LAI (AMERICAL IO)--Fighting was light throughout the Americal Division's southern I Corps area yesterday, except in southern Quang Ngai Province, where "Jungle Warriors" of the 11th Inf. Bde. accounted for 17 of the 34 enemy killed and three of the four weapons captured.

* * * *

IRON MOUNTAIN--After several days of only finding small caches, the "Jungle Warriors" yesterday found the enemy in nine contacts.

Along the coast, two miles northeast of Duc Pho, the recon element of 4-21 Inf. engaged and killed six VC and two NVA and captured an M-2 rifle.

Co. B, 4-3 Inf. near the Song De river, 14 miles west of Duc Pho, killed one VC hiding in a tunnel and captured a K-44 rifle.

Later the company discovered eight huts, 35 sleeping positions, one bunker and 700 pounds of rice.

An enemy medical relay station was closed down by **Co. G, 75th Rangers**, seven miles west of Duc Pho. The NVA station lost its license to operate when the rangers came upon the hootch while searching a stream bed.

"We went to search the hootch and found a bunker beneath with two surprised NVA inside," said SP4 Ralph Cole (St. Louis).

After giving the NVA occupants a taste of M-16 medicine, a search of the area was made, uncovering a large amount of medical supplies and one K-44 rifle.

Other action in the brigade area found artillery pounding away at enemy positions, accounting for four more VC killed.

AMERICAL DIVISION NEWS

CHU LAI (AMERICAL IO)--Ten NVA and 21 VC were killed and nine weapons ??? crew-served were captured by elements ? the Americal Division yesterday.

* * * *

IRON MOUNTAIN--The 11th Inf. Bde. area again had the most enemy activity as "Jungle Warrior" accounted for 10 NVA and one VC killed, and all the weapons captured.

A combined sweep by E Trp., 1st Sqdn., 1st Cav. and Co. B, 3-1 Inf. netted five NVA killed in an area six miles southeast of Duc Pho.

Contact was made at 1600 hours and continued past dark. It began when the units received RPG rounds from an unknown size enemy force. Captured in the fight were one 57 recoilless rifle, an RPG launcher, three AK-47 rifles, and an M-79.

Elsewhere, while on a an area recon mission in foothills, eight miles south of Duc Pho, a unit of **Co. G, 75th Inf.** spotted a well-used trail.

According to SP4 George Siffron (Niagara Falls, N.Y.), "Shortly after spotting the trail, 15 NVA walked ??? then five minutes later five more ??? used the trail. We decided to set ?? ambush, but just about that time ??? our men was spotted."

Throwing grenades and laying down a heavy volume of fire, the rangers killed one NVA before contact was broken.

Other 11th Bde. units accounted for the remaining five enemy killed, plus two AK-47 rifles and a .45 caliber pistol. Six VC suspects were also detained.

15May70-**Team Outwits NVA After Close Call**

**LZ BAYONET, Vietnam (Special)** -It was a matter of evasive action and a series of timely decisions which allowed an Americal Div. long Range patrol to successfully evade a large enemy force.

The team from **G Co., 75th Inf**. (Ranger), unfortunately found themselves inserted almost in the midst of a small NVA basecamp. The long ordeal southwest of Chu Lai resulted in two NVA killed and the precarious extraction of the team from the mountainous terrain of the 198th Inf. Brigade area.

"We had just set foot on the ground," said Sgt. Gregory A. Kowalczyk, "when we spotted one NVA soldier wearing a green uniform standing near a bunker. He was pointing at us so we knew there had to be more."

The element quickly maneuvered to find concealment beneath the thick vegetation and continued to move several hundred meters until they came to a stream. Here, assuming they had lost the enemy, they decided to establish a nigh laager.

"We removed our gear," Kowalczyk said, "And sat down to rest in silence when we heard a dog barking and brush breaking to the south. Our team leader then immediately moved to a vantage point to visually recon the area."

From his observation point he failed to detect any movement from where the noise had come, but as he continued to scan the terrain he spotted two NVA with weapons approaching his position form the north. Both carried flashlights with red filters and flashed them about, attempting to locate the team's position. After warning the others to get ready to move, the team leader returned to observation point. Another member of the team soon relieved him and as he watched the movement he saw three more NVA following the first two.

"We decided to call for an extraction," said Kowalczyk.

The team continued to move down the stream to the coordinated extraction point. There they set up a defensive perimeter. The radio-telephone operator began sending coded messages to the relay team As the men waited they spotted five more NVA approaching their location.

"They were on a trail which lead to our position." said Kowalczyk. "We let them get 20 meters away and them tossed several frags in on top of them. We killed one."

Soon after gunships arrived and sprayed the surrounding area to allow the team to be extracted by a McGuire rig lowered through the trees.

## RANGERS--Eyes And Ears Of The Americal

Story and Photos by
SP4 Pete Schwarz
Americal IO

CHU LAI--"I felt like a peeping Charlie" was the comment used by PFC Andrew J. Pack to sum up his three week course at the Americal's Recondo School. What prompted the remark was the last period of instruction which unlike most military schools, is an actual live mission into enemy territory.

The students who pass the rugged coruse become Rangers and are highly qualified jungle fighters. Their mission will be to go out into "Charlie's land" in small groups, usually from two to seven men, and perform reconnaissance work.

The students are trained to infiltrate and work close to the enemy in a way they will not be detected. Since they work in such small groups, each man must be a specialist in all areas of warfare.

### School Rough

Three weeks might seem like a short time to become a specialist in amny fields, but that's what makes the school tough.

Because the course is short, the students are selected with care. Most are veteran soldiers who have served and proven themselves with the infantry units in the field.

After the students are selected and the course begins, the attrition rate is high, with 65 to 60 percent of the students not completing the course. "A pupil must come with the concept that he wants to be a Ranger more than anything else or he won't make it," commented Recondo School instructor SGT Clarence E. Avery.

### Expert

The Americal trained Ranger is an expert with maps. He knows all of the correct intelligence and communications procedures and is an expert with all light weapons, ours, and the enemies.

"We're trained to work better at Charlie's own game," explained SGT John Dane, the Recondo School NCOIC. Dane explained the advantage of the small Ranger unit over the infantry unit is that, "There is the element of surprise, we can move without being seen."

The school stresses physical fitness. No "softy" can accomplish the commando type tactics. Upon completion of the course, the students think nothing of a seven mile run. For the Ranger the most important classes given concern patrol techniques. He is taught how to move and infiltrate. The students spend long and arduous hours practicing to be silent and unseen.

All through the course students pick up handy tips on what the school calls "field expedient methods" on how to handle various situations. The neophyte learns that the school solution to a problem can't always be used and that he must think for himself to outwit "Charlie".

### Extraction

Among the commando tactics taught at the Recondo School are methods of air and water infiltration and extraction. The new Rangers are taught to rappel from hovering helicopters as well as being extracted from an area by hanging onto a 150 foot rope attached to a hovering chopper that lifts the Ranger up and away.

The students who do make it through the course feel it was worth it. "It was the first time I could hear Charlie messing around," explained PFC Robert S. Parker, "it was exciting." (Americal IO) (Continued)

RANGER GROUP IS FOOL-PROOF

By Tony Swindell

LZ BRONCO--a new type of Long Range Patrol (LRP) team has taken to the field in an effort to refine even more their pathfinder skills and techniques in the varied terrain around the 11th Bde. Headquarters and to also integrate ARVN soldiers into the LRP missions.

### New Type LRP Team

Eating, sleeping, living and fighting together the men of G Co., 75th Inf. (Rangers) and the Vietnamese Rangers from the 2nd ARVN Div. have already proven in just two patrols that the concept can work and work well.

"The ARVN Rangers have provided a sharpness to our patrols that we did not have before," said 1LT Harrison Jack (Woodland, Calif.), a platoon leader. "They usually walk point and provide rear security on our missions because they have a real knack for spotting enemy activity or movement."

### Combat Veterans

All the ARVN Rangers are combat veterans, having received training which parallels that of their American counterparts. Following service in the field with a regular ARVN line unit, they attended the Vietnamese Recondo School, Ranger and Airborne schools, and the special Military Assistance Command Vietnam (MACV) Recondo School.

PFC Ivan MacDonald (Boston), who worked with the ARVN Rangers on a mission, spoke highly of the elite Vietnamese group. "They were really good, and it's hard to believe how quietly they can move through the jungle and detect even faint signs of enemy activity."

"Developing mutual confidence is one of our goals," said 1LT Jack, "and I think we have made significant progress in the short time the ARVN Rangers have been here. The language barrier is a problem, but you don't need words to express the confidence all my men show to these Rangers."

### Hand Signals

In spite of the language difficulty, the American-Vietnamese teams function smoothly with a set of hand signals.

"It's the little things I like about them," said MacDonald. "They are really alert out in the bush. One of them detected a large group of enemy soldiers about 50 meters from our night position, and another spotted enemy movement on an insertion that possibly saved our lives." (11th IO)

RANGERS THRUST DEMOLISHES ENEMY

DUC PHO A pre-dawn surprise attack on a heavy concentration of enemy soldiers successfully concluded a three-day mission for a six-man ranger team from Co. G, 75th Rangers, operating on a patrol in an area six miles from here.

An insertion at dawn brought the team within 150 meters of their planned OP site and also a well-worn enemy trail.

Setting up quickly, the team headed by 19-year-old **SSG Robert J. Pruden (CMOH recipient)** (St. Paul, Minn.) took up position overlooking the trail and a wide expanse of valley below.

Using high-powered binoculars, enemy movement was observed 3,000 meters away near the base of a hill to the south-east. SSG Pruden and SP4 Ralph Cole (Washington, Mo.) adjusted artillery fire, killing two surprised NVA.

Again during the afternoon several well dispersed NVA were seen leaving their position, moving down the slope into the rice paddies below.

After continuous observation for several more hours, another concentration of enemy soldiers appeared carrying weapons. A quick call for pre-plotted artillery resulted in three dead enemy and several wounded. This interjectory fire disrupted enemy movement into the valley and by noon the second day, no further contact had been made.

A decision was then made by the sergeant to move the team down from the OP site into the valley below and set up an ambush near the point where the enemy movement had been observed.

With SP4 Cole walking point, the team moved silently for several hundred meters along a dry stream bed that merged with a well-used trail. Numerous enemy positions, an RPG-6 rocket and an unidentified mine were found as the team worked its way through the dense jungle before emerging into the flat expanse of the rice paddies.

"This is when it will get a bit ticklish, since we have very little cover for the night," whispered SP4 Spurgoon (Ed) Beattie (Salisbury, N.C.) as the team prepared to night laager in the open rice paddy 300 meters from goal.

Moving out before dawn, the team was just nearing the ambush position when eight enemy soldiers were spotted 20 meters away. As the enemy opened up with a barrage of AK-47 fire, Cole and Pruden killed two of the enemy as they attempted to seek cover back up the slope.

## Reenlistment Earns Recondo Sarge 8 Grand

**Photo Caption: THE REENLISTMENT OATH** is being read by CPT James B. McWilliams to SSG Lonnie Dale Miller. CPT McWilliams is commanding officer of G. Co. (Ranger), **75th Inf**., of which SSG Miller is a Recondo member. (Photo by PFC Paul B. Clark, Spt. Cmd. IO) (Note: this photo includes the G/75th Ranger headquarters sign)

**CHU LAI --** It's not often that a soldier gets paid $8,000 for just five minutes work. But SSG Lonnie Dale Miller (Bertin, Md.) of **Co. G (Ranger), 75th Inf**. had it happen to him when he received a bonus for that amount in reenlisting for his present MOS as a ranger.

The 23-year old soldier has a record of doing things big. He was a honor graduate of both the division recondo school and leadership course.

Miller served as an assistant team leader with Co. G's platoon working near LZ Baldy in the 196th Inf. area of operation. After his sixth long range patrol, Miller's talents were becoming apparent and was returned to Chu Lai to serve as an instructor in the division recondo school.

Since that time, he has done an outstanding job in preparing students to become members of LRPs.

"Army green is great, especially the folding kind," commented the $8000-richer sergeant. (Spt. Cmd. IO)

## NVA Mail Bagged

LZ HAWK HILL -- Some NVA soldiers expecting Tet mail may have been disappointed this year.

Shortly before Tet an AMERICAL Division Long Range Reconnaissance Patrol (LRRP), detained an NVA mail courier.

LRRP teams Arkansas and Georgia, Company G, 75th Ranger Battalion, 196th Brigade were moving along a wide trail southwest of Tam Ky.

Suddenly Arkansas point man, SP4 Pedro Martinez (Ponce, Puerto Rico), heard movement.

"There were three NVA to our front," said SP4 Julian Serna (Fresno, Calif.). "They started to run and we opened up."

SP4 Martinez aimed carefully and fired. One NVA fell behind a rock. Moving up cautiously they found the wounded NVA lying face down.

Beside the enemy was a large, brown sack, but the LRRPs's did not have time to search it.

The brown sack was also taken in for examination. It contained 80 letters. (196th IO)

## Rangers invade camp

SP5 Richard Merritt

LZ HAWK HILL (196th INF BDE IO) -- An NVA base camp 32 miles northwest of Tam Ky is no place to be.

A Long Range Reconnaissance Patrol (LRRP) unit, Team Arkansas of Company G, 75th Ranger, did not exactly plan it that way but when they went out to gather intelligence they came to the right - or wrong - place.

"We knew that we might run into an enemy force," said Staff Sergeant Richard Keller of Eureka, Calif. "Our primary mission is to bring in an intelligence report on what we see. You just never know what you might find though." Sergeant Keller is the team's leader.

Working in the 196th Infantry Brigade's area of operation, the small team was dropped seven miles north of Landing Zone Siberia the western most fire base of the Division.

The first landing zone proved hazardous.

"When we got down low enough, I saw several bunkers." Sergeant Keller shook his head. "A little lower and we could see NVA walking around. I shouted at the pilot to get us out of (continued on page 6) **Rangers evade foe** (continued from page 1) there. Neither we nor the NVA fired, I guess we were both too stunned."

The Huey helicopter moved about a mile north and sat down with the LRRP team. The men soon found a trail marked with foot prints and walked parallel to it for about a half mile. Then they heard voices.

The NVA saw the infantrymen almost as soon as the Rangers spotted them. A volley of fire killed five NVA and wounded two. The Rangers said later there were 17 enemy in the small clearing. The NVA hid and blazed back with AK-47 and SKS rifle fire.

"A big unit came up behind us," related Sergeant Keller. "Sergeant Henderson came slipping through the brush from the OP and I told him to get on the radio."

The other men kept up a raking fire. A small observation aircraft was the first to come to their aid. It flew low over the trees sniping at the enemy force which had now grown quite large. Later gunships rolled in on the NVA.

"We were lucky to get out of there," said Sergeant Keller. "Well, we definitely found out what Division wanted to know."

Division recap

## 196th Bde finds enemy basecamp

Action decreased noticeably in the past week's action as units of the Americal killed 103 enemy soldiers. In Operation Frederick Hill "Chargers" of the 196th Infantry Brigade killed 40 enemy soldiers and destroyed an enemy basecamp. Elsewhere in Operation Geneva Park the "Brave and Bold" of the 198th Infantry Brigade also found and destroyed a large enemy basecamp and tallied 31 enemy soldiers. In Operation Iron Mountain the "Jungle Warriors" of the 11th Infantry Brigade also found and destroyed a large bunker complex consisting of 30 bunkers and from 50 to 70 fighting positions.

,,,,,,,,,,,,,,,,,,,,,,

### Geneva Park

Early in the week **H Troop, 17th Cavalry**, moving into a village on foot, engaged and killed five VC as the enemy attempted to evade the cavalrymen's search. "When my men entered the village," said Captain Oliver Croom, Garland, N.C., troops commander, the enemy tried to evade,. But we got five before they could make it to a nearby treeline." The troopers also destroyed a mortar pit in the action.

The same day, **Echo Recon, 1st Battalion, 52nd Infantry** observed three VC moving west of Quang Ngai City. The "Ready Rifles" killed two and continued maneuvering. A short time later, the Recon element spotted two more VC and killed them.

The next morning **Charlie Company**, while working in a heavily vegetated area southwest of Chu Lai, discovered a large enemy basecamp. The complex contained 10 bunkers, each having two or three entrances. There were also 50 fighting positions on a 400 yard stretch of trail leading to the camp. The infantrymen destroyed the entire complex.

The same day an aerial observer from the **1st Battalion, 14th Artillery**, observed two VC on the ground below. The gunner opened up with automatic weapons to kill both.

The next day **Bravo Company, 123rd Aviation Company** inserted an aerial rifle platoon south of Chu Lai which found and killed five VC.

In mid-week action a long range reconnaissance patrol from **G Company, 75th Rangers**, on a mission northwest of Quang Ngai, discovered a battalion sized basecamp. The camp consisted of 130 to 180 bunkers, each containing a two man fighting position.

The next day the **Rangers** still working northwest of Quang Ngai engaged and killed three enemy and captured 45 bags of salt and 80 kilos of rice (Note: about 180 pounds of rice).

To conclude the action for the week **Bravo Company, 1st Battalion, 6th Infantry** maneuvering in an area northeast of Quang Ngai, spotted four VC moving across a rice paddy. The "Regulars" fired on the enemy with automatic weapons killing one.

.....

## Division Recap

**Weekly action--division counts 82**

**By SP4 David P. Goodrich**

.....

**Iron Mountain**

Bronco action was moderate this week as men of the 11th Infantry Brigade killed 26 enemy soldiers.

The **Night Hawks of the 123rd Aviation Battalion** started out the week as they received small arms fire while flying over the foothills west of Quang Ngai City. Searching the area, they spotted, engaged and killed two VC.

Later in the day while reacting to a radar, the **'Night Hawks'** spotted two more VC in the lowlands west of Duc Pho. The results of the ensuing action were two dead VC.

Later in the week, a light observation helicopter from the battalion spotted a lone VC over the foothills southwest of Duc Pho. The LOH engaged and killed him.

In the same area, the **"Blues"**, an aerial rifle platoon of the battalion were inserted. The platoon rapidly engaged and killed two enemy soldiers.

Early in the week, while patrolling the lowlands southeast of Duc Pho, a recon element of the **4th Battalion, 21st Infantry** found one Viet Cong inside a tunnel. He was asked to come out but he refused. The tunnel was destroyed resulting in one VC killed.

The next day, reacting to a radar sighting, the men of **F Troop, 7th Cavalry [sic-8th Cavalry]** checked an area in the lowlands northwest of Duc Pho and spotted three VC. They engaged the enemy resulting in three Viet Cong dead.

During a patrol of the foothills west of Duc Pho, the **69th Rangers** engaged an unknown size enemy force resulting in three enemy dead.

While on a search and clear mission in the foothills northwest of Duc Pho, **Company B of the 4th Battalion, 3rd Infantry** engaged one NVA. He was killed.

Elements of the **4th Battalion, 3rd Infantry**, working with the **70th Rangers, an ARVN unit**, observed a small size enemy force in the foothills northwest of Duc Pho. After receiving fire support from the **6th Battalion, 11th Artillery**, the infantrymen swept the area finding four VC killed in action. Also found was a shotgun, an AK-47 and 35 huts. After investigating the area, the huts were destroyed.

A light observation helicopter teamed up with the fire support from the **6th Battalion, 11th Artillery** to kill two NVA and one VC over the foothills west of Quang Ngai City.

Patrolling the foothills of Duc Pho, **G Company of the 75th Rangers**, a long range patrol unit engaged two enemy soldiers, killing both.

On the last day of the week, a gunship from the **174th Aviation Company** spotted and engaged a lone VC in the lowlands west of Duc Pho, killing him.

.....

## Division nets 48 enemy

By SP4 David Goodrich

In relatively light action last week, the men of the Americal Division accounted for 48 enemy dead, while capturing a number of others.

### IRON MOUNTAIN

While action was very light elsewhere, it was almost normal in the 11th Infantry Brigade area of operations during the week ended. The troopers of Iron Mountain accounted for 21 enemy kills, as well as capturing supplies.

While scanning the foothills west of Quang Ngai City at start of the week, a LOH from the **123rd Aviation Company** spotted and engaged a lone VC over the foothills southwest of Duc Pho. The enemy was killed.

In the same area that day, the "Blues", an aerial rifle platoon of the **123rd Aviation Company** were inserted. The platoon engaged and killed two enemy soldiers.

A gunship from the **174th Aviation Co**. killed a lone VC over the lowlands west of Duc Pho.

Patrolling the foothills southwest of Duc Pho, **G Company, 75th Rangers** engaged two enemy soldiers, killing both.

A couple of days later, **Company C, 4th Battalion, 21st Infantry** engaged and killed a VC while in a day laager position. Checking the area, they made contact again, killing another enemy and capturing a rifle.

Elements of **F Troop, 8th Cavalry** (helicopter), spotted a VC along a roadside in the lowlands south of Duc Pho. He was killed and an automatic weapon was captured.

While patrolling the foothills southwest of Duc Pho, elements of **Charlie Company, 4th Battalion, 3rd Infantry** observed and engaged an enemy soldier. He was killed and a pistol was captured.

Later in the same area, the company spotted, engaged and killed another Viet Cong, capturing his AK-47.

Three Viet Cong Chieu Hoi'd and turned themselves into the 1st Battalion, 20th Infantry northeast of Duc Pho. All ralliers complained of inadequate food and a general apathy of Viet Cong goals.

An attempt to set a 250 pound booby trap was foiled when troops of **Bravo Company, 1st Battalion, 20th Infantry** engaged the enemy at 150 meters, killing him.

A gunship of the **123rd Aviation Company** spotted and engaged three Viet Cong, while flying over the foothills west of Quang Ngai City. All three were killed.

Working in the lowlands south of Duc Pho yesterday, Company C of the 4th Battalion 21st Infantry found five hootches with connecting bunkers, containing a small variety of VC equipment. The infantrymen also unveiled three spider-holes nearby. After a thorough study of the area, the hootch area was destroyed.

.....

## Division Re-Cap

### Action is light

### By SP4 Steve Elschlager

CHU LAI (23rd Inf. Div. IO)

- Action was light last week for the men of the 23rd Infantry Division as 56 enemy soldiers were killed and several large caches were uncovered in the Army's largest area of operation.

### GENEVA PARK

In operation "Geneva Park" during the week, action increased for the 198th Infantry Brigade as 26 enemy soldiers were killed and several enemy weapons were captured.

Enemy contact continued to be heavy for the second straight week as the "Ready Rifles" of the **1st Battalion, 52nd Infantry**, killed 17 Viet Cong south of Chu Lai.

**Alpha Company, 1st Battalion, 52nd Infantry**, while on an early morning patrol, received fire from a distance of 300 meters. The "**Ready Rifles**" swept the area of contact and observed a group of Viet Cong evading to the west. The infantry maneuvered to a better firing position, and killed six Viet Cong. Captured in the action were a pistol, an AK-47 rifle, three packs, and two hand grenades. All of the captured items were extracted to a nearby LZ. Later **Alpha Company** detained two Vietnamese.

**Alpha Company** also found a large rice cache during the week. Over 5,400 pounds of rice was uncovered at the bottom of a bomb crater. The rice was stored in four large barrels, and was destroyed by the "**Ready Rifles**". Alpha Company also found three barrels of rice, buried in the ground next to a woodline, containing 3,040 pounds of rice.

**Charlie Company, 1st Battalion, 52nd Infantry**, observed and engaged a group of Viet Cong. The "Ready Rifles" swept the area of contact and killed six enemy and captured an automatic weapon, five packs, and seven hand grenades.

Later, Charlie Company heard an explosion a short distance from their day laager position. the infantrymen swept the area and found one Viet Cong who had been wounded when he stepped on his own booby trap. The "Ready Rifles" continued the sweep and found another enemy killed by the booby trap.

In a night defensive position, Charlie Company heard an explosion a short distance from their position. The infantrymen swept the area and found that enemy soldiers had tripped their own booby trap for the second day in a row. Charlie Company then processed mortar fire in the suspected enemy location, and later found one enemy killed by the mortar fire, and a short distance away the "Ready Rifles" found a wounded Viet Cong.

Charlie Company also detained four Vietnamese in a small village south of Chu Lai during the week. **Echo Recon, 1st Battalion, 52nd Infantry**, killed two enemy soldiers in two separate engagements. In both actions, the "**Ready Rifles**" engaged a small group of Viet Cong moving along trails.

While searching a small village south of Chu Lai, Delta Company, 1st Battalion, 52nd Infantry, engaged and killed a Viet Cong when he tried to evade into a nearby woodline.

Action was scattered for the infantrymen of **the 1st Battalion, 6th Infantry**, as the "**Regulars**" killed three enemy and detained several Viet Cong suspects and found a tunnel complex southeast of Chu Lai.

While on patrol, **Delta Company, 1st Battalion, 6th Infantry**, found several tunnel complexes. The "Regulars" searched the tunnels and detained five Viet Cong suspects.

In a day laager position southeast of Chu Lai, **Bravo Company, 1st Battalion, 6th Infantry**, received two ralliers who were extracted to a nearby landing zone.

Later, Bravo Company found several baskets containing 500 pounds of rice. The "Regulars" detained five Vietnamese and extracted them to a nearby landing zone for further questioning.

The "**Professionals**" of the **5th Battalion, 46th Infantry**, killed two enemy soldiers and captured an enemy mortar in operations conducted northwest of Chu Lai.

While in a night defensive perimeter, Bravo Company, 5th Battalion, 46th Infantry, engaged and killed on Viet Cong. The "Professionals" also captured 25 pounds of rice.

In other action in the 198th Infantry Brigade's area of operation, gunships from **D Troop, 1st Squadron, 1st Cavalry**, observed and engaged four military structures with rocket fire. The gunships killed two Viet Cong.

In a day laager position southeast of Chu Lai, a team from **G Company, 75th Rangers**, engaged two enemy near the infantrymen's position. Two enemy were killed, and an AK-47 rifle, a 9mm pistol, and four Chicom hand grenades were taken in the action.

Gunships from **D Troop, 1st Squadron, 1st Cavalry**, engaged and destroyed four military structures, two bunkers, and what appeared to be two ammunition depots south of Chu Lai. There were secondary explosions.

.....

Daily Wrapup

'Jungle Warriors' kill seven enemy

.....

Friday, 11 June

Bravo Company, 123rd Aviation Battalion, while on a Visual Reconnaissance (VR) west of Ba To, engaged and killed three NVA soldiers with weapons.

H Troop, 17th Cavalry, while working southeast of Mo Duc, found an ammo can filled with miscellaneous military equipment. Continuing to patrol, they found and destroyed two punji pits, one pit contained a can of petna. Following a trail leading from the punji pits they found a bunker. Inside the bunker, they found two black outfits, miscellaneous - clothing, rice bowls and 2 1/2 pounds of petna. All items were destroyed.

Continuing to patrol, H Troop found and destroyed one bunker, 30 pounds of rice, one B-40 rocket, 16 rounds of AK-47 ammo and one 105 round.

E Troop, 1st Cavalry patrolling northwest of Mo Duc, found and destroyed one bunker containing boobytrap equipment and cooking utensils.

Continuing to patrol, they found and destroyed three more bunkers, a can of petna with trip wire firing device and two 2.75 inch rockets. E Troop also found 300 pounds of unpolished rice. The rice was evacuated to Mo Duc.

Alpha Company, 1/20 Infantry found and destroyed a booby trapped 60mm round while in a base camp west of Mo Duc.

The 75th Rangers while patrolling west of Duc Pho, sighted 15 enemy moving southwest of their position. They engaged the enemy and killed two NVA soldiers.

Saturday, June 12

The 75th Rangers, working northwest of Duc Pho, found various medical supplies, eight NVA ponchos, eight NVA pistol belts, five rockets, 300 pounds of rice, 500 AK-47 rounds, two AK magazines, one gas mask, some civilian clothing and twenty hammocks. All items were extracted to a nearby Landing Zone.

Alpha Company, 1/20 Infantry found and destroyed two booby-traps made from 60mm mortars while working west of Mo Duc. The booby-traps had pressure release firing devices.

Echo Troop, 1st Cavalry, while patrolling northwest of Mo Duc, found and destroyed one spider hole while on patrol west of Mo Duc.

Elements of the 11th Brigade collected one mortar round and one 40mm round from Vietnamese civilians along QL-1 south of Duc Pho under the VIP program.

Vol. 4, No. 32 Chu Lai, Vietnam August 13, 1971 Pages 6

## 196th Brigade reports 24 kills in Action

DA NANG (196th Inf. Bde. IO) - The "Chargers" fo the 196th Infantry Brigade accounted for 24 enemy deaths, and uncovered several enemy caches in moderate action.

**F Troop, 8th Cavalry**, while on an air cavalry mission early this week, inserted the Blues into an area west of Da Nang. The Blues swept the area and observed two VC soldiers evading northwest. They engaged the enemy with small arms fire, killing both enemy soldiers. Two rucksacks containing miscellaneous clothing, 12 rice knives and a small amount of medical supplies were captured in the action. The captured supplies were extracted to Da Nang.

Later the same day, while working in an area southwest of Da Nang, **Company A, 3d Battalion, 21st Infantry**, engaged three VC soldiers with small arms fire. As a result, one enemy soldier was killed as the others evaded west.

**F Troop, 17th Cavalry**, while working the 116th PFs (Popular Forces), observed four to five VC soldiers approximately 350 meters west of their position. They engaged the enemy with small arms fire and processed artillery on the enemy's location. The PFs then swept the area and found three VC soldiers killed in the action, and detained another. The detainee was taken to Da Nang for questioning.

The **reconnaissance element of 3rd Bn., 21st Inf.,** while on patrol southwest of Da Nang, came across a structure next to a cave. The cave was searched and the "**Gimlets**" found 50 pounds of rice, one AK-50, 150 rounds of AK-47 ammunition, three RPG boosters, three RPG tail assemblies, miscellaneous clothing and eight Chicom grenades. The AK-50 was extracted to a nearby LZ and the rest destroyed.

While on patrol west of Da Nang, **F Troop, 17th Cav**. found two 122mm rockets and 190 pounds of rice. The rice was inedible and was destroyed along with the rockets.

B Troop, 1st Squadron, 1st Cavalry, while in their night defensive position early this week, received five RPG rounds and observed four VC soldiers evading southwest. "**Blue Ghost**" was on station and spotted an unknown size enemy force. "Blue Ghost" engaged the enemy, killing two as the other evaded.

**Company B, 1st Battalion, 46th Infantry**, while patrolling west of Da Nang this week, found two caves containing 680 pounds of rice. The rice was extracted to Da Nang.

A LOH from **F Troop, 8th Cavalry**, while on a VR (visual reconnaissance) mission received small arms fire from a structure. Gunships, which were flying with the LOH, then engaged and destroyed the structure. The VR ship later observed another structure and engaged and destroyed it. The Blues were inserted and swept the area, finding a cave containing 500 to 600 pounds of rice. Due to the technical situation, the rice was unable to be extracted and was destroyed.

While checking an artillery impact area this week, **Company C, 3d Bn., 21st Inf**. found one AK-47 rifle with two magazines containing 60 rounds and five rucksacks containing two ammunition pouches, four magazines with 80 rounds, one Chicom grenade, one 9mm pistol belt with clip, two canteens, one mess kit, an unknown amount of NVA money, 30 pounds of rice and one civilian ID card. The entire find was extracted to a nearby LZ.

**Company C, 3rd Bn., 21st Inf**., while patrolling an area west of Da Nang, spotted six enemy soldiers moving to their front. They engaged the enemy with small arms fire, killing three as the other evaded northwest.

While on patrol this week the 116th RFs (Regional Forces) found a tunnel that had collapsed because of artillery fire. Upon searching the tunnel, the RFs uncovered the bodies of 12 VC soldiers. The kills were credited to Alpha Battery, 3rd Battalion, 15th Artillery, for fire missions.

**Bravo Troop, 1st Squadron, 1st Cavalry**, while patrolling an area west of Da Nag, found 300 pounds of marijuana hidden under a parachute. The find was destroyed.

Company B, 1st Bn., 46th Inf., while on patrol west of Da Nang, found one enemy structure containing 1000 pounds of rice stored in sandbags. The rice was extracted to Da Nang.

Later in the same area, **Company D, 1st Bn., 46th Inf**., while on a search and clear mission, discovered two cache sites containing 100 pounds of rice. Five hundred pounds of the rice was inedible and was destroyed, while the remaining 500 pounds was extracted to Da Nang.

While in their day defensive position this week, **Company G, 75th Rangers**, had a mechanical ambush detonate. Upon checking the area, they found one dead VC soldier and recovered one AK-47 rifle.

**F Troop, 8th Cav**., while on an air cavalry mission later this week, inserted the Blues into an area west of Da Nang. The Blues swept the area and captured an enemy soldier hiding in a cave. A search of the cave uncovered one SKS, one 9mm pistol, four rucksacks, one AK-47 magazine, 15 rounds of AK ammunition, three sets of NVA fatigues, nine batteries, a metal box containing 21 radio tubes, 200 feet of detonator wire, miscellaneous medical supplies, assorted food stuff and various cooking utensils. The enemy soldier and all the supplies were extracted to Da Nang.

## Two 'grunts' live, fight together for 12 months

By SGT Tom Mano

CAMP REASONER, (196th Inf. Bde. IO) - For 12 of the past 13 months they have lived, slept and sometimes even fought side by side. They call each other "brother", but the only blood bond they share is that spilled by their enemies.

Ronald D. Hicks (Hollywood, Fla.) and Steve L. Hicks (Rossville, Ga.), both specialist four, fought together with the **cavalry** near Bien Hoa for three months then separated for a month. They were coincidentally reunited when both applied for ranger training in the 196th Infantry Brigade.

"I couldn't believe it when I first saw him," remembers Ron. "He had gone home on an emergency leave and I thought our partnership had ended."

While with the cavalry, Steve had talked of going ranger, but Ron didn't want to, so Steve dropped it. It was a complete surprise when they met in **Company G, 75th Rangers** here.

"I thought he'd be the last person to become a ranger," stated Steve. "Before, Ron was pretty adamant about not going in the program."

When team Paris, the six man squad they worked in, split into two flanks, the two "brothers" almost always accompany each other. Their concern for one another, combined with a sixth sense on their partner's reactions, makes them an impressive fighting team.

"There's something between us; I really can't put my finger on it," explained Ron. "We always go together; we're like one."

"If we hit contact, the first thing I look for is to see if he's hurt," added Steve. "I try to keep close enough, so I can watch him all the time."

"Also, when we hit something, I knew exactly what he's going to do," continued Steve. "In a time of reaction instead of thought, it can make the difference between whether we come back together or one of us comes back alone."

## Ranger captures Russian pistol from killed enemy

By SGT Tom Mano

CAMP REASONER (196th Inf. Bde. IO) - "I've been in the bush for 32 months and I've never seen one like this before," commented a ranger staff sergeant here as he turned the pistol over in his hand.

Fascination was expressed by all six men of Paris team, Company G, 75th Rangers when they discovered the weapon on an enemy killed in recent action in the 196th Infantry Brigade AO.

"It's called a Makarov," said Specialist Four Ronald C. Hicks (Hollywood, Fla.), the proud owner of the 9mm Russian-made pistol. "It's going back with me as a souvenir."

"I've seen many Chinese Communist-made 9mm pistols," interjected Staff Sergeant Larry G. Ousley (Belleville, Mich.), team leader of Paris Team. "But the writings on this one mark it as distinctively Russian."

The pistol was "awarded to Hicks, because it was his kill which brought about its capture. It was taken from a political officer who had been operating in the area obtaining rice for his comrades.

"We knew he was an officer by his clothes and haircut," mused Ousley. "Their enlisted men are like ours; they just don't like to cut their hair."

Hicks realizes the value of the weapon. He plans on firing it over here, but not taking it back to the field. "Guys have told me I could get $250 for it back in [the] world," Stated Hicks. "It will probably adorn my wall when I get home."

"We managed to scrounge up an Army manual on enemy weapons," continued the Ranger. "It shows how to disassemble and clean it, so that will be no problem."

When the weapon is displayed in Hicks' home, it will provide him with a constant reminder of an NVA political officer.

11TH INFANTRY BRIGADE
TRIDENT
"JUNGLE WARRIORS"
VOLUME 3 NUMBER 35? DUC PHO, VIETNAM SUNDAY September 21, 1969 page 1

---

# 11TH BDE WRAP-UP

Action was moderate in Southern Quang Ngai Province this past week as the 11th Brigade's Jungle Warriors", killed 40 enemy soldiers, detained 46 VCS and captured 5 weapons.

The "Warlords" of **B Co., 123rd Aviation Bn**. opened the week by capturing a VCS six miles southwest of Duc Pho. He was military age and did not have an ID.

The "Warlords" continued operation the next day and killed two VC and captured nine VCS five miles south of here. Nine miles southwest of Duc Pho a team of Rangers from **G Co., 75th Rangers** working under the operational control of the 11th Bde. killed on VC on their first day of operation and killed three NVA on the second day and captured an AK47, AK56, 9mm pistol and some documents. In a joint operation involving RF and PF forces the "Sharks of the 174th AHC provided air support to the ground unit and killed four NVA 11 miles northwest of Duc Pho.

.....

Graphic illustration of the Ranger ambush described in the article below:

# "OLD WEST" TACTICS

Resurrecting the classic "Old West" tactic of the ambush in the pass, a team of Rangers recently used similar techniques, killing four NVA.

The Rangers from **G Co., 75th Inf.** camouflaged in the traditional "War Paint" set up on the banks overlooking a trail nine miles S.W. of Duc Pho. The route is a popular thoroughfare for supply-toting VC and NVA soldiers.

Deviating only slightly from the techniques of the western plains, the Ranger elements used radios instead of smoke signals to alert their team members of the approaching enemy. A small radio-equipped group watched each end of the trail preventing any NVA from escaping.

Armed with both knives and firearms the four-man ambush squad sprung from the five foot embankment and silently dispatched the unsuspecting enemy.

When the situation required using rifles, an extraction was necessary since the team's position had been given away.

Leaving the extraction choppers which were loaded down with NVA equipment and weapons SSgt Robert J. Pruden (CMOH recipient), the team leader, summed up the men's feelings, "They usually try to spring an ambush on us but we turned the tables, giving them a taste of their own tactics, but silently."

The "Charger" was a newsletter published by the 196th LIB.

# THE LUCKY LRRPS

Sp5 Richardd Merritt

LZ HAWK HILL**An NVA base camp 32 miles northwest of Tam Ky is no place to be.

A Long Range Reconnaissance Patrol (LRRP) unit with the Americal Division, Team Arkansas of Company G, 75th Ranger, didn't exactly plan it that way but when they went out the right–or–wrong–place.

"We knew we might run into an enemy force," SSGT Richard Keller of Eureka, California. Our primary mission is to bring in an intelligence report on what we see. You just never know what you might find, though." SSGT Keller is a team leader.

Working in the 196th AO, the small team was dropped seven miles north of LZ Siberia, the westernmost fire base in the Division.

The first LZ proved hazardous.

"When we got down low enough, I saw several bunkers." Keller shook his head. "A little lower and we could see NVA walking around. I shouted at the pilot to get us out of there. Neither one of us fired. I guess we were both too stunned.

The Huey helicopter moved about a mile north and set down with the LRRP team.

The men soon found a trail marked with footprints and walked parallel to it for about a half mile. Then they heard voices.

"We didn't see who it was right then," said SGT Edward Henderson (Bethan, Ala.), RTO.

At the time they thought it was farmers or someone traveling on the footpath.

The team moved to high ground and set up an observation post (OP), left the radioman there, and continued back down the trail toward the voices.

The NVA saw the infantrymen almost as soon as the Americans spied them.

A volley of fire killed five NVA and wounded two. The rangers said later there were 17 enemy in the small clearing. The NVA hid and blazed back with AK-47 and SKS rifles.

"A big unit came up behind us," said Keller. "Sergeant Henderson came slipping through the brush from the OP and I told him to get on the radio."

The other men kept up a fierce raking fire. A small observation aircraft was the first to come to their aid. It flew low over the trees sniping at the enemy force, which was now very large, until gunships arrived.

"We were lucky to get out of there," said Keller. "Well we definitely found out what Division wanted to know." He looked down, then shrugged and scratched his head. "There is one hell of a base camp out there."

## An informative history of G/75th Rangers is available online.

I have made a backup copy of the text in case the web-site disappears at some time in the future (90% of the unit web-sites that were around in the 1980;s are gone now). Since it is copyrighted and there might be additions or corrections available you should view this online using this link:

http://www.75thrra.com/history/g75_hx.html.

**This is another site to view a history for G/75th Inf. (Rangers):**
